

Teachers' Professional Development

We mentioned last month that four of our teachers are taking part in a leadership and professional development programme this year run by Dignitas. The four teachers attended their first classes during the school holidays and really enjoyed them.

This month they will start meeting with their coach who will visit the school every month, observe classes and mentor the teachers one-on-one. It's going to be a rewarding but challenging journey. Please join us in prayer to support this group of teachers.

Easter Holiday Fun

A favourite moment of Holiday Clubs was when the children finally found Pastor David, who had been hiding crouched in the store room. The children were playing 'Hunt the Leader' around the school compound and Pastor David had eluded them all. When they finally discovered him, a huge uproar could be heard probably on the other side of Kibera!

Throughout the holiday, we ran three days of Bible Holiday Club at the school; an outreach football camp from the library and regular art and story sessions at the library. It's been a busy month! We're grateful that all events were well attended and a blessing to all in attendance. We're also grateful for volunteers who helped us run activities in the library.
